

HOUSTON SWING ENGINE

We are a dirty rock band from Lausanne Switzerland. We have 1 EP ("greatest hits" 2001) and 2 albums ("The Smell of Horses" 2003 and "The Tiger Flamboyant"2004) We shared the stage with nice bands like Queens of The Stone Age, The International Noise Conspiracy, The Eagles Of Death Metal, Helmet, Therapy, Gwar, The Sewergrooves, Kruger, The Hellsuckers, Billy Talent, The Atomic Bitchwax, The Bellrays, Mclusky, Millionaire. We often play naked. We are loud. For lazy journalists, we like The Stooges, the MC5, Queens of the stone age, Refused, in fact, everything that has soul in it.

Our new album "Entre Hommes" was recorded in San Feliu Spain last summer with Santi Garcia and will hit the stores march the 30th 2007 on Headstrong Records

We are the world, we are the children, we have a little something for your younger sisters, we don't give a fuck about corporate rock music, we are Houston Swing Engine.
